

Sample TGIR Beamer Deck

A consistent, restrained slide starting point

- Shared styling lives with the Architecture Library, not an external sibling project.
- Each deck explicitly opts into the TGIR template and local logo asset.
- Content remains ordinary Beamer source, so it stays simple to maintain.

Focus	Evidence	Next move
Consistency	One shared style	Use it for each new deck
Readability	16:9 layout	Split crowded content
Portability	Local asset path	Copy shared/ with the starter

- Compile the PDF from the shared template and inspect the rendered pages.
- Keep ordinary PDFs in docs/; status artifacts remain entirely in status/.
- Update the source and issue a newly dated PDF when supporting evidence changes.

- Confirm that the branding, title hierarchy, logo, and footer remain template-driven.
- Check that each slide has one decision, one supporting point, and enough whitespace to be read at normal presentation distance.
